

Cyber**ADVANTAGE**

Annual Maintenance & Support

CyberImaging, Inc is offering service and support to practitioners that have an Eyeweb DTI unit. The DTI imager hardware is completely compatible the CyberEYES software. The functionality of the Eyeweb Version 8.0 software is also included in the CyberEYES software although the interface has been upgraded for improved workflow, esthetics and usability.

GET YOUR CYBEREYES UPGRADE by completing the form below and faxing to 919.876.0128.
